

A Daughter's Dance

Our first dance
Was lit by the moon
Shining its light
Into your bedroom
Two feet on the floor
Our adventure begun
We swayed 'til you slept
Then welcomed the sun

**Seeing life unfold
Through your eyes
Is a story to behold
That's made me realize
As time moves on
Keep on, dancing on
As time moves on
Keep on, dancing on**

I've held you close
When you wanted to spin
You waltzed away
Yet, came home again
You've twirled across
The Metaverse
Photographed it all
Achieved so many firsts

Chorus

I'll sit this next one out
And watch as you go about
Dancing the dance of your heart
With a man who's street-smart
Who knows a step or two
And is so in love with you
So, when you have the chance
Darling, get out there and dance

Chorus

By Rick McGee and Clayton Jones
