

Letting Go

Verse 1

You didn't have to skip it
that initial year of school
But you were more than ready
to start making your own rules
You ventured to New Zealand
jumped off a bridge, had a thrill
Brought home a pretty black bird
drawn on your leg with great skill

Chorus

**Life has a real strong pull on you
I'm learning about letting go
Your heart and head know what to do
I'll be around, when you get knocked down
be the one to help keep your feet on the ground
I'll be around for all your highs and lows**

Verse 2

Texas could not contain you
El trains, Cubs games more your style
I moved you in, drove away
and saw your last childhood smile
You met a skyline builder
and started a new ground floor
A Hokie from Virginia
I've seen him make your heart soar

Chorus

Verse 3

Young Sara's still in my mind
an image seared deep inside
I'm so proud who you've become
on this day that you're a bride

Chorus
